Clark Road Truss Replacement 2021

Addendum #1

The following items are changes to the Clark Road Truss Replacement 2021 Specifications:

1. The bridge railing shall be truss mounted twin steel tube railing.
2. The approach railing will be installed by the winning bidder and is to include transitions from the truss mounted twin steel tube railing on the structure to w-beam railing. The total length of approach railing including transitions is approximately 175 feet total. Payment for this item will be included in the lump sum price for Superstructure Construction.
